The state of nutrition: disease prevention, screening & care

- MEP Aldo Patriciello, [Video]
- MEP Sara Cerdas, MD [Video]
- Matthias Schuppe, DG Santé
- Laurence Doughan, MoH Belgium

Malnutrition affects 33 Million European citizens and places an unacceptable burden on European citizens and health care budgets. Ample scientific evidence shows that optimising nutrition and nutritional care is a very (cost-) effective measure in both disease prevention and treatment. How do we ensure optimal nutritional care implementation to be an integral part of future National and EU health policies and recommendations?

- Cristina Cuerda, MD, ESPEN
